WWMF 100 Rules Tariff

Item 2150 Control and Exclusive Use of Vehicle

Section 01

Effective Jan/01/08

Exclusive use of a vehicle is offered to meet the needs of Shippers who require segregation of their freight from the freight of other Shippers for protection against damage, scrutiny, pilferage, or the immediate forwarding of partial loads, or any other reason, subject to the following provisions:

1. Upon request of the Shipper, the Carrier will furnish a vehicle which will be exclusively used by the Carrier for the transportation of the shipment. The bill of lading must bear the following notation: "Exclusive Use of Vehicle Requested".
2. A shipment moving under the provisions of this item will be transported in the vehicle from origin to destination without transfer of lading. When the vehicle is suitable for the application of locks or seals, the Shipper may, at his/her option, apply locks or seals to the vehicle with instructions that the vehicle remain locked or sealed and be so delivered at destination.
3. The charge for the service provided herein shall be computed at the lawfully published and/or independently established rate or rates, subject to a minimum charge of (BELOW):

M/C Per Loaded Mile:

\$1.75

NOTE A: The provisions of this item apply only on shipments on which the charges are prepaid or guaranteed by the Shipper, or shipments which move on government bills of lading.
